Sample Pack: What a Verified Page Delivery Looks Like

Verified Pages | Krissy Anne Waters | portfolio.krissyannewaters.com

This is a redacted excerpt of a real delivery: a 17-page LLC research project for Persuasion Nation. Every page shipped with a source log, dated checkout walks, a claim audit, an unresolved-items list and a change log. Personal data is removed. Nothing here claims a paid order or a tested dashboard.

1. Evidence chain: the Bizee California fee

Bizee's checkout shows a $75 "California State Fee." The state's own fee is $70. Four sources, each labeled by type:

#	Source	What it shows	Type	Date
1	California Secretary of State fee table	Articles of Organization (LLC-1) fee: $70	Official	Nov 2026
2	Bizee checkout walk, stopped before payment	Line item "California State Fee": $75	Observed checkout, walk log	Oct 29
3	Bizee support reply (ticket number redacted)	"the state of California charges us $75.00"	Support confirmation	Oct 30
4	Bizee's own California filing-forms page	"Filing fee: $70 (Articles of Organization, Form LLC-1)"	Published price	Nov 8

The $5 gap is unexplained. Bizee's checkout and support reply say $75, while the state table and Bizee's own page say $70. We gave it no label, because no source says what it is. The published wording in every Bizee price cell is "unexplained," and the page lists it as an unresolved item.

2. Claim audit excerpt: California LLC cost page

Every claim on a page maps to a source and a status. S = screenshot, E = support record, O = official source, P = provider page, J = judgment.

Claim on the page	Source	Status
Articles of Organization (LLC-1) costs $70	California SOS LLC forms and fees	O
Initial Statement of Information costs $20, due within 90 days	SOS Statements of Information	O
Annual LLC tax is $800; first payment due the 15th day of the 4th month, formation month counted as month one	FTB Publication 3556 (June 19 filing, September 15 due)	O
First-year $800 exemption covered tax years beginning 2021 through 2023, so a 2026 LLC owes it	FTB 3556 and FTB LLC page	O
MyCompanyWorks' order page still told new LLCs to skip the $800	Checkout walk, Oct 29 and Nov 7	S
MyCompanyWorks support: "No, the $800 first-year exemption does not apply to an LLC formed in 2026."	Support reply, Nov 2 to 3 (ticket number redacted)	E
CorpNet's and MyCompanyWorks' extra $5 is a certified copy of the Articles	Support replies, Oct 30 and Nov 2 to 3	E
Bizee's extra $5 is "unexplained"	Checkout walk, support reply, SOS fee table	S, E, O

Claim on the page	Source	Status
LLC fee tiers start at $250,000 of California total income	FTB 2025 Form 568 booklet	O
Northwest is cheapest with an agent over three years: $289, or $389 with Renewal Filings left on	Checkout walk, Oct 29	S

Removed for lack of evidence: a $79 “expedite” fee (California has none; the figure was ZenBusiness’s own rush service), processing-time promises of 2 to 4 weeks (the state publishes weekly processing dates), and “500+ LLCs researched” and “attorney reviewed” (nothing documented either).

3. Unresolved item entry

What we could not confirm is listed, never buried. Example:

- Bizee’s $5 above the state fee. Current wording: “unexplained” in every Bizee price cell.
- Evidence: Bizee checkout line “California State Fee” $75 (Oct 29); Bizee support reply “the state of California charges us $75.00” (Oct 30); SOS fee table $70; Bizee’s own filing-forms page, $70 (Nov 8).
- Could not confirm: what the $5 pays for. We contacted no provider beyond the Oct 30 support test.
- What would close it: a written answer from Bizee on what the $5 covers. The client decides whether to ask, or to keep publishing “unexplained.”

4. Change-log entry

Every client revision gets a line saying what changed, why and which source backs it. Example from the California cost page, revision 1:

- CA6, Bizee charge. “Most likely the same certified copy” became “an unexplained $5 above the published Articles fee,” with Bizee’s reply quoted. Reason: no Bizee statement says what the $5 is for, so the CorpNet and MyCompanyWorks explanations were not borrowed. Evidence: Bizee support reply, Oct 30.
- Error the client did not flag. The December 16 example said a second $800 was due “four months later.” The first $800 is due March 15, 2027 and the next April 15, 2027, one month apart. Fixed against the FTB counting rule.

5. Audit scorecard

The independent audit of the revision-1 drafts, dated Nov 7, 2026 and run before the Nov 8 fixes, covered 61 items: 50 PASS, 11 PARTIAL, 0 FAIL. It is a pre-delivery audit of drafts, not a post-delivery review. The PARTIAL items were worked through in the Nov 8 revision pass.
